Creating Policy Pages

- The naming of policy pages is important. Tagged pages are collected and sorted alphabetically (such as in the Code, where all Title 1 policies are including on the Title 1 page). Be sure to consider this when creating additional pages.
- Adding policies in between other policies will become very difficult with the implementation of this wiki. Consider adding policies in sequence with older policies (10.4, 10.5, **10.6**) instead of displacing older policies (3.7, **3.8**, 3.9, 3.10)
